

We have a very small (verging on microscopic) kitchen at a *Diego's Joint*, so we decided on a 'quality over quantity' approach to our food and snack menus.

Our kitchen operates at set times each day and, to ensure good service, we need to limit our maximum amount of orders. Due to these reasons, **we suggest booking in advance** where possible, because when it's gone, it really is gone (for that day at least).

Just like everything else in *Diego's*, we are a million miles removed from anything resembling a chain or franchise. This means although the quality of our ingredients, preparation and cooking will remain consistent, our menu items will never look like a replica of the last one.

All of our menu is vegetarian and many of our items have **vegan options**, however even the staunchest carnivores who've sampled our bites have been impressed.

PIZZA

Our artisan pizzas are all **freshly made to order** with hand stretched sourdough bases. The dough is served in **12" portions** and is perfect to split or keep to yourself, depending on your appetite. We stretch the dough to a **thin crust style** as standard but if you prefer a thicker base, just give our staff the heads up.
